Harrison Nursery School

Child Protection Pastoral Care Policy

SCHOOL ETHOS

The ethos, or distinctive character and atmosphere of Harrison Nursery School will promote the all round development of the children within a caring environment, ensuring equal opportunities for all.

It is the policy of the Board of Governors of Harrison Nursery School that all pupils are offered a curriculum which:-

- meets their physical, social, emotional and cognitive needs at their particular stage of development.
- motivates, challenges and stimulates them.
- is broad and balanced and helps children prepare for the opportunities, responsibilities and experiences of adult life.

We aim to safeguard and promote our children's safety and well being.

VISION OF HARRISON NURSERY SCHOOL

We, the staff of Harrison Nursery School believe in promoting the personal, social & emotional, and academic goals desirable for all our pupils.

We aim to provide a working, caring and happy atmosphere in which every child reaches his or her full potential.

We believe in the dignity and worth of each child in our school.

We wish to promote in all our pupils a caring, responsible attitude towards each other and to the environment. Hopefully, these values will be carried on into their adult life.

We aim to promote individual empowerment and values such as self-esteem, openness, honesty, tolerance, respect and caring for self and others.

SCHOOL'S POLICY AND PROCEDURES ON CHILD PROTECTION

We in Harrison Nursery School have a primary responsibility for the care, welfare and safety of the pupils in our charge, and we will carry out this duty through our pastoral care policy. This aims to provide a caring, supportive and safe environment, valuing individuals for their unique talents and abilities, in which all our pupils can learn and develop to their full potential.

KEY PRINCIPLES OF SAFEGUARDING AND CHILD PROTECTION

The general principles, which underpin our work, are those set out in the UN Convention on the Rights of the Child and are enshrined in the Children (Northern Ireland) Order 1995, 'Cooperating to Safeguard Children and Young People in Northern Ireland (DHSSPSNI, 2017 and 2024), the Department of Education (Northern Ireland) guidance 'Safeguarding and Child Protection in Schools' Circular 2017/04 (and subsequent amendments) and the Safeguarding Board for NI Core Child Protection Policy & Procedures (2017).

The following Principles form the basis of our Child Protection Policy -

- the child or young person's welfare is paramount;
- the voice of the child or young person should be heard;
- parents are supported to exercise parental responsibility and families helped stay together;
- partnership;
- prevention;
- responses should be proportionate to the circumstances;
- protection; and
- evidence based and informed decision making.

Adult Safeguarding

For further information see https://www.heatlh-ni.gov.uk/publications/adult-safeguarding-prevention-and-protection-partnership-key-document

Adult safeguarding is based on fundamental human rights and on respecting the rights of adults as individuals, treating all adults with dignity and respecting their right to choose. It involves empowering and enabling all adults, including those at risk of harm, to manage their own health and wellbeing and to keep themselves safe. It extends to intervening to protect where harm has occurred or is likely to occur and promoting access to justice. All adults at risk should be central to any actions and decisions affecting their lives.

We are committed to:

- Ensuring that the welfare of vulnerable adults is paramount.
- Maximising the student's choice, control and inclusion, and protecting their human rights.
- Working in partnership with others to safeguard vulnerable adults.

We will follow the procedures outlined in this policy when responding to concerns or disclosures of abuse relating to our students (e.g. on placement), who are 18 years or over.

Other related policies -

The school has a duty to ensure that safeguarding permeates all activities and functions. The child protection policy therefore complements and supports a range of other school policies including -

- Anti-bullying policy
- Promoting Positive behaviour
- Behaviour management
- Code of Conduct
- Complaints policy
- Data protection policy
- E-safety
- ICT
- First aid and administration of medicines
- Health and safety policy
- · Health and well-being
- Child observation
- Photography
- Intimate care
- Settling in
- Special Education Needs
- Reasonable force/safe handling
- Restraint

These policies are available to parents and any parent wishing to have a copy should contact the school office of visit the school website at www.harrisonnurseryschool.co.uk.

HARRISON NURSERY SCHOOL SAFEGUARDING TEAM

Designated Teacher for Child Protection: Jill Hunter (Principal)

Deputy Designated Teacher: Brenda Edwards

Designated Governor for Child Protection: David Jones

ROLES & RESPONSIBILITIES

The Designated Teacher and Deputy Designated Teacher

Every school is required to appoint a Designated teacher with responsibility for Child Protection. They must also appoint a Deputy Designated Teacher who as a member of the Safeguarding team will actively support the Designated Teacher in carrying out the following duties -

The designated teacher and deputy designated teacher must:

- Avail of training so that they are aware of duties, responsibilities and roles
- Maintain a current awareness of early intervention support and other local services e.g. family support hubs etc.
- Organise training for all staff (whole school training)
- Ensure staff are aware that Notes of Concern should be completed using the template provided in DE circular 2020/07.
- Lead in the development of the school's Child Protection Policy
- Promotion of a safeguarding and child protection ethos in the school
- Act as a point of contact for staff and parents
- Assist in the drafting and issuing of the summary of our Child Protection arrangements for parents
- Make referrals to Social Services Gateway team or PSNI Public Protection Unit where appropriate
- Liaise with the EA Designated Officers for Child Protection
- Maintain records of all child protection concerns
- Keep the School Principal informed
- Provide written reports to the Board of Governors regarding child protection

The Principal

The Principal must ensure that:

- He/she, as secretary to BOG, assist in fulfilling its safeguarding and child protection duties
- DENI 2017/04 is implemented within the school
- A designated teacher and deputy are appointed and are supported to fulfil their safeguarding responsibilities
- Principal Safeguarding training is availed of
- All staff receive child protection training
- All necessary referrals are taken forward in the appropriate manner
- The chairperson of the Board of Governors (and, when appropriate, the Board of Governors) is kept informed of all developments relating to safeguarding including changes to legislation, policy, procedures, DE circulars
- Allegations/complaints against school staff are managed appropriately, school records
 of child abuse complaints are maintained
- Child protection activities feature on the agenda of the Board of Governors meetings and termly updates & annual report are provided
- The school child protection policy is reviewed annually and that parents and pupils receive a copy of this policy
- Confidentiality is paramount. Information should only be passed to the entire Board of Governors on a need-to-know basis

- He/she establishes and manages the safeguarding and child protection systems within the school. This includes the appointment and management of suitable staff to the key roles of DT and DDT Designated Teacher posts and ensuring that new staff and volunteers have safeguarding and child protection awareness sessions as part of an induction programme.
- There is protected time and support to allow the DT to carry out this important role
 effectively and that DTs are selected based on knowledge and skills required to fulfil
 the role.
- Parents receive a copy or summary of the child protection policy at intake
- Safe and effective recruitment and selection takes place, including awareness of safeguarding and child protection for new staff & volunteers

Board of Governors

- A designated governor for child protection is appointed
- A designated & deputy teacher are appointed in the school
- Have a full understanding of the roles of the designated and deputy designated teachers for child protection
- Safeguarding and child protection training is given to all staff and governors including refresher training
- School has a child protection policy which is reviewed annually and parents and pupils receive a copy of the child protection policy and complaints procedure each year
- School has an anti-bullying policy which is reviewed at intervals of no more than four years and maintains records of all incidents of bullying or alleged bullying (ref. Addressing Bullying in Schools Act (NI) 2016)
- There is a code of conduct for all adults working in the school
- All school staff and volunteers are recruited and vetted, in line with DE Circulars
- Receive a full annual report on all child protection matters (best practice is termly report of child protection activities, this is the procedure that we operate). This report should include details of the preventative curriculum and any initiatives or awareness raising undertaken within the school, including training for staff etc.
- The school maintains the following child protection records in line with DE Circulars 2015/13 Dealing with Allegations of Abuse Against a Member of Staff and 2016/20 Child Protection: Record Keeping in Schools

The Designated Governor for Child Protection

The Designated Governor will provide the child protection lead in order to advise the Governors on:

- The role of the designated teachers
- The content of child protection policies
- The content of a code of conduct for adults within the school
- The content of the termly updates and full Annual Designated Teachers Report
- Recruitment, selection and vetting of staff

The Designated Governor for Child Protection to avail of child protection awareness training delivered by CPSSS.

The Chair of the Board of Governors

The Chairperson of the BOG plays a pivotal role in creating and maintaining the safeguarding ethos within the school environment.

In the event of a safeguarding or child protection complaint being made against the Principal, it is the Chairperson who must assume lead responsibility for managing the complaint/allegation in keeping with guidance issued by the Department (and relevant guidance from other Departments when it comes to other early years settings), employing authorities, and the school's own policies and procedures.

The Chairperson is responsible for ensuring that child protection records are kept and for signing and dating annually the Record of Child Abuse Complaints against staff members even if there have been no entries.

The Chair of the Board of Governors must:

- Ensure that a safeguarding ethos is maintained within the school environment
- Ensure that the school has a Child Protection Policy in place and that staff implement the policy
- Ensure that Governors undertake appropriate child protection and recruitment & selection training provided by the EA Child Protection Support Service for Schools, the EA Governor Support and Human Resource departments
- Ensure that a Designated Governor for Child Protection is appointed
- Assume lead responsibility for managing any complaint/allegation against the School Principal
- Ensure that the Board of Governors receive termly updates and a full written annual report in relation to child protection activity

Other Members of School Staff

Staff in school see children over long periods and can notice physical, behavioural and emotional indicators and hear allegations of abuse.

Remember the 5Rs: Receive, Reassure, Respond, Record and Refer

The member of staff must:

- Refer/report concerns to the Designated/Deputy Teacher for Child Protection/Principal
- Listen to what is being said without displaying shock or disbelief and support the child
- Act promptly
- Make a concise written record of a child's disclosure using the actual words of the child
- Avail of whole school training and relevant other training regarding safeguarding children
- Not give children a guarantee of total confidentiality regarding their disclosures
- Not investigate
- Not ask leading questions

In addition, the Class Teacher should:

 Keep the Designated Teacher informed (complete note of concern) about poor attendance and punctuality, poor presentation, changed or unusual behaviour, deterioration in educational progress, discussions with parents about concerns relating to their child, concerns about pupil abuse or serious bullying, concerns about home conditions including disclosures of domestic violence

Parents

The primary responsibility for safeguarding and protection of children rests with parents who should feel confident about raising any concerns they have in relation to their child.

Parents should play their part in safeguarding by informing the school:

- if the child has a medical condition or educational needs;
- if there are any Court Orders relating to the safety or wellbeing of a parent or child;
- if there are any changes in a child's circumstances e.g. change of address, change of contact details, change of name, change or parental responsibility;
- if there are any changes to arrangements about who brings their child to and from school;
- if their child is absent and should send in a note on the child's return to school. This assures the school that the parent/carer knows about the absence. More information on parental responsibility can be found on the EA website at www.eani.org.uk/schools/safeguarding-and-child-protection

- contacting the school on the morning of their child's absence, so the school is reassured as to the child's situation
- familiarising themselves with the school's Pastoral Care, Anti-Bullying, Promoting Positive Behaviour, Internet and Child Protection Policies etc.
- raising concerns promptly they have in relation to their child with the school

It is essential that the school has up to date contact details for the parent/carer.

Harrison Nursery School recognises their five main responsibilities in the area of Safeguarding and Child Protection. These are in the areas of prevention, recognition, response, referral and confidentiality/record keeping. Parents will be made aware of the school's responsibilities and procedures by being provided with copies of our Child Protection and Promoting Positive Behaviour Policies. As well as this all school policies are available for parents to view and request a copy of if they wish.

1. PREVENTION

The nursery school offers protection on two levels:

- 1. immediate protection All children are vulnerable. We offer a supportive, caring and listening environment that makes it easier for children to talk and share their concerns.
- 2. **long term protection** enhancing self-esteem and encouraging pro-social skills. We offer children an alternative role model to violent and abusive behaviour and alternative methods of responding e.g. rewarding positive behaviour.

We seek to protect our pupils by helping them to recognise unwelcome behaviour in others and acquire the confidence and skills they need to keep themselves safe. We do this through the use of wall charts/picture, stories, conversation time, PSNI visiting. Parents are involved through Parenting Courses.

All teaching and non-teaching staff have been vetted by EA/PSNI. Students only commence their placement when vetting has been completed. Visitors to school (e.g. dental nurse, firemen etc.) are always in the presence of the class teacher where children are involved. When a member of staff answers the door to a visitor the visitor is asked to identify himself/herself and then asked to wait in the porch or entrance hall for the Principal or her deputy. It is the policy of the school that no workmen complete work when the children are in school. Appointments can be made with the Principal for after 1.30pm. Exceptions to this include work in areas that the children do not have access to and in emergencies. Parents/grandparents/voluntary helpers who visit school or assist on a school trip are never in an unsupervised capacity with the children. We have an advice sheet which all voluntary helpers on outings are asked to read so that they are familiar with procedures. All voluntary helpers will never be responsible for taking children to the toilet.

Our school is committed to in-service training for all staff - teaching and non-teaching. Each member of staff has received general training on Policy and Procedures with other members of staff receiving more specialist training in line with their roles and responsibilities.

The nursery is bright, well-equipped and opens on to an outdoor play area, this area is surrounded by high railings. A security intercom system is fitted at the main entrance door. This secures all children and staff within the building and ensures no unauthorised access to the nursery.

Parents provide the school with a list of authorised people to collect their child.

We the staff of Harrison Nursery School have adopted a Code of Conduct for our behaviour towards pupils.

CODE OF CONDUCT (see policy)

Staff are aware of the dangers which may arise from one-to-one situations. It is recognised that there may be occasions when individual attention is required e.g. sickness, first-aid etc. As far as possible, staff will deal with these situations in a room with the door open.

Where such conditions cannot apply, staff will ensure that another adult is aware of the situation. Where possible another pupil or (preferably) another adult will be present or nearby.

PHYSICAL CONTACT WITH PUPILS

As a general principle, staff are not to make unnecessary physical contact with the children.

It is unrealistic and unnecessary, however, to suggest that staff should touch pupils only in emergencies. In particular, a distressed child may need reassurance involving physical comforting, as a caring parent would provide. Staff should not feel inhibited from providing this.

Teachers and nursery assistants may come into physical contact with young children while helping them with toileting, and on occasions it may be necessary to change their clothing as a result of sickness or mishap. IF PARENTS DO NOT WISH STAFF TO ASSIST THEIR CHILD, THE SCHOOL MUST BE INFORMED IN WRITING. Students will never be involved in changing children.

Staff will never touch a child who has clearly indicated that he/she is, or would be, uncomfortable with such contact unless it is necessary to protect the child, others or property from harm.

Physical punishment is illegal as is any form of physical response to misbehaviour, unless it is by way of necessary restraint.

Staff who have to administer first-aid to a pupil will ensure whenever possible that this is done in the presence of other children or another adult. If the class teacher feels that a pupil's physical welfare is causing great concern, the designated member of staff for first-aid - Mrs J Hunter or Mrs B Edwards - will be consulted. In the event of an emergency parents will be contacted and medical help sought.

Following any incident where a member of staff feels that his/her actions have been, or may be misconstrued, a written report of the incident will be submitted to the principal or designated teacher.

It is impossible and inappropriate to lay down hard and fast rules to cover ALL the circumstances in which our staff interrelate with our pupils or where opportunities for their conduct to be misconstrued might occur.

This Code of Conduct will be kept constantly under review.

2. RECOGNITION

What is Child Abuse?

Child abuse may take a number of forms, including:

Neglect is the failure to provide for a child's basic needs, whether it be adequate food, clothing, hygiene, supervision or shelter that is likely to result in the serious impairment of a child's health or development. Children who are neglected often also suffer from other types of abuse.

Physical Abuse is deliberately physically hurting a child. It might take a variety of different forms, including hitting, biting, pinching, shaking, throwing, poisoning, burning or scalding, drowning or suffocating a child.

Sexual Abuse occurs when others use and exploit children sexually for their own gratification or gain or the gratification of others. Sexual abuse may involve physical contact, including assault by penetration (for example, rape, or oral sex) or non-penetrative acts such as masturbation, kissing, rubbing and touching outside clothing. It may include non-contact activities, such as involving children in the production of sexual images, forcing children to look at sexual images or watch sexual activities, encouraging children to behave in sexually inappropriate ways or grooming a child in preparation for abuse (including via e-technology). Sexual abuse is not solely perpetrated by adult males. Women can commit acts of sexual abuse, as can other children.

Emotional Abuse is the persistent emotional maltreatment of a child. It is also sometimes called psychological abuse and it can have severe and persistent adverse effects on a child's emotional development. Emotional abuse may involve deliberately telling a child that they are worthless, or unloved and inadequate. It may include not giving a child opportunities to express their views, deliberately silencing them, or 'making fun' of what they say or how they communicate. Emotional abuse may involve bullying - including online bullying through social networks, online games or mobile phones - by a child's peers.

Exploitation is the intentional ill-treatment, manipulation or abuse of power and control over a child or young person; to take selfish or unfair advantage of a child or young person or situation, for personal gain. It may manifest itself in many forms such as child labour, slavery, servitude, engagement in criminal activity, begging, benefit or other financial fraud or child trafficking. It extends to the recruitment, transportation, transfer, harbouring or receipt of children for the purpose of exploitation. Exploitation can be sexual in nature.

*All the above definitions are from Co-operating to Safeguard Children and Young People in Northern Ireland (2016)

These types of abuse apply equally to children with disabilities but the abuse may take slightly different forms, for example, lack of supervision, or the use of physical restraints such as being confined to a wheelchair or bed.

Definition of Abuse

Child abuse occurs when a child is neglected, harmed or not provided with proper care. Children may be abused in many settings, in a family, in an institutional or community setting, by those known to them or more rarely, by a stranger. There are different types of abuse and a child may suffer more than one of them. The procedures outlined in this document are intended to safeguard children who are at risk of significant harm because of abuse or neglect by a parent, carer or other with a duty of care towards a child.

Definition of Harm

(Co-operating to Safeguard Children and young People in Northern Ireland October 2024) Harm can be suffered by a child or young person by acts of abuse perpetrated upon them by others. Abuse can happen in any family, but children may be more at risk if their parents have problems with drugs, alcohol and mental health, or if they live in a home where domestic abuse happens. Abuse can also occur outside of the family environment. Evidence shows that babies and children with disabilities can be more vulnerable to suffering abuse.

Although the harm from the abuse might take a long time to be recognisable in the child or young person, professionals may be in a position to observe its indicators earlier, for example, in the way that a parent interacts with their child. Effective and ongoing information sharing is key between professionals.

Harm from abuse is not always straightforward to identify and a child or young person may experience more than one type of harm.

Harm can be caused by:

Sexual abuse Emotional abuse Physical abuse Neglect Exploitation

Children with Increased Vulnerabilities

Some children have increased risk of abuse due to specific vulnerabilities such as disability, lack of fluency in English, or sexual orientation.

Adult Safeguarding

An 'Adult at risk of harm' is a person aged 18 or over, whose exposure to harm through abuse, exploitation or neglect may be increased by their:

- a) Personal characteristics and/or
- b) Life circumstances

Personal characteristics may include, but are not limited to, age, disability, special educational needs, illness, mental or physical frailty or impairment of, or disturbance in, the functioning of the mind or brain.

Life circumstances may include, but are not limited to, isolation, socio-economic factors and environmental living conditions.

An 'Adult in need of protection' is a person aged 18 or over, whose exposure to harm through abuse, exploitation or neglect may be increased by their:

- a) Personal characteristics and/or
- b) Life circumstances and
- c) Who is unable to protect their own wellbeing, property, assets, rights or other interests; and
- d) Where the action or inaction of another person or persons is causing, or is likely to cause, him/her to be harmed.

Children with Increased Vulnerabilities

• Children With a Disability

Children and young people with disabilities (i.e. any child or young person who has a physical, sensory or learning impairment or a significant health condition) may be more vulnerable to abuse and those working with children with disabilities should be aware of any vulnerability factors associated with risk of harm, and any emerging child protection issues.

Staff must be aware that communication difficulties can be hidden or overlooked making disclosure particularly difficult. Staff and volunteers working with children with disabilities will receive training to enable them to identify and refer concerns early, to allow preventative action to be taken.

• Children with Limited Fluency in English

Children whose first language is not English/Newcomer pupils should be given the opportunity to express themselves to a member of staff or other professional with appropriate language/communication skills, especially where there are concerns that abuse may have occurred. DTs and other relevant school staff should seek advice and support from the EA's Intercultural Education Service if necessary. All schools should create an atmosphere in which pupils with special educational needs which involve communication difficulties, or pupils for whom English is not their first language, feel confident to discuss these issues or other matters that may be worrying them.

Pre-School Provision

Many of the issues in the preceding paragraphs will be relevant to our young children who may have limited communication skills. In addition to the above, staff will follow our Intimate Care policy and procedures in consultation with the child's parent(s)/carer(s). Teachers, nursery assistants and other adults will come into contact with children while helping them with toileting, washing and changing their clothing.

Link to signs & symptoms from SBNI Regional Core Policies & Procedures guidance https://proceduresonline.com/trixcms/media/1248/sign-and-symptoms-of-child-abuse-and-neglect.pdf

Types of Abuse

<u>Physical Abuse</u> is the deliberate physical injury to a child, or the wilful or neglectful failure to prevent physical injury or suffering. This may include hitting, shaking, throwing, poisoning, burning or scalding, drowning, suffocating, confinement to a room or cot, or inappropriately giving drugs to control behaviour.

Physical Indicators of Physical Abuse

Unexplained bruises - in various stages of healing - grip marks on arms; slap marks; human bite marks: welts: bald spots; unexplained/untreated especially burns; cigarette burns (glove like); unexplained fractures; lacerations; or abrasions; bruising on both sides of the ear - symmetrical bruising should be treated with suspicion; injuries occurring in a time pattern e.g. every Monday

Behavioural Indicators of Physical Abuse

Self-destructive tendencies; aggressive to other children: behavioural extremes (withdrawn or aggressive); appears frightened or cowed in presence of adults; improbable excuses to explain injuries; chronic runaway; uncomfortable with physical contact; come to school early or stays last as afraid to be at home: clothing inappropriate to weather - to hide part of body; violent themes in art work or stories

<u>Emotional Abuse</u> is the persistent emotional ill-treatment of a child such as to cause severe and persistent adverse effects on the child's emotional development. It may involve conveying to a child that he is worthless or unloved, inadequate, or valued only insofar as he meets the needs of the other person. It may involve causing a child to frequently feel frightened or in danger, or the exploitation or corruption of a child. Some level of emotional abuse is involved in all types of ill-treatment of a child, though it may occur alone. Domestic violence, adult mental health problems and parental substance misuse may expose a child to emotional abuse.

Physical Indicators of Emotional Abuse

Well below average in height and weight; "failing to thrive"; poor hair and skin; alopecia; swollen extremities i.e. icy cold and swollen hands and feet; recurrent diarrhoea, wetting and soiling; sudden speech disorders; signs of self mutilation; extremes of physical, mental and emotional development (e.g. anorexia, vomiting, stooping)

Behavioural Indicators of Emotional Abuse

Apathy and dejection; inappropriate emotional responses to painful situations; rocking/head banging; inability to play; indifference to separation from family; indiscriminate attachment; reluctance for parental liaison; fear of new situation; chronic runaway; attention-seeking/needing behaviour; poor peer relationships.

<u>Neglect</u> is the failure to meet a child's physical, emotional and/or psychological needs, likely to result in significant harm. It may involve a parent or carer failing to provide adequate food, shelter and clothing, failing to protect a child from physical harm or danger, failing to ensure access to appropriate medical care or treatment, lack of stimulation or lack of supervision. It may also include non-organic failure to thrive (faltering growth).

, 5.6a. =a.6a.6. 5 6, 110g.66.	Physical	Indicators	of	Neglect
--------------------------------	----------	-------------------	----	---------

Looks very thin, poorly and sad; constant hunger; lack of energy; untreated medical problems; special needs of child not being

Behavioural Indicators of Neglect

Tired or listless (falls asleep in class); steals food; compulsive eating; begging from class friends; withdrawn; lacks concentration;

met; constant tiredness; inappropriate dress; poor hygiene; repeatedly unwashed; smelly; repeated accidents, especially burns.

misses school medicals; reports that no carer is at home; low self-esteem; persistent non-attendance at school; exposure to violence including unsuitable videos.

Domestic and Sexual Abuse

The NI Domestic and Sexual Abuse strategy 2024-2031 defines domestic and sexual violence and abuse as follows: -

Domestic Abuse is:

Threatening, controlling, coercive behaviour, violence or abuse (psychological, virtual, physical, verbal, sexual, financial or emotional) inflicted on anyone (irrespective of age, ethnicity, religion, gender, gender identity, sexual orientation or any form of disability) by a current of former intimate partner or family member

Sexual Abuse is:

Any behaviour (physical, psychological, verbal, virtual/online) perceived to be of a sexual nature which is controlling, coercive, exploitative, harmful, or unwanted that is inflicted on anyone (irrespective of age, ethnicity, religion, gender, gender identity, sexual orientation or any form of disability).

Physical Indicators of Sexual Abuse

Bruises, scratches, bite marks or other injuries to breasts, buttocks, lower abdomen or thighs; bruises or bleeding in genital or anal areas: stained or bloody underclothes: chronic ailments such recurrent abdominal pains or headaches; difficulty in walking or sitting; frequent infections; anorexia/gross urinary overeating.

Behavioural Indicators of Sexual Abuse

What the child tells you; withdrawal; chronic depression; excessive sexual precociousness; seductiveness; children having knowledge beyond their usual frame of reference e.g. young child who can describe details of adult sexuality; parent/child role reversal; overconcerned for siblings; poor self-esteem; self devaluation; of confidence; lack problems; lack of involvement; massive weight change; hysterical/angry outbursts; lack of emotional control: sudden school difficulties e.a. deterioration in school work or behaviour: inappropriate sex play; repeated attempts to run away from home; unusual or bizarre sexual themes in children's art work or stories; vulnerability to sexual and emotional exploitation; promiscuity; exposure pornographic material.

It is now recognised that children who live in an atmosphere of domestic abuse may be at risk. Symptoms which young people may display and which are indicators include:

- Nervousness
- Low self-worth
- Disturbed sleep patterns
- Nightmare / flashbacks
- Physiological stress / nerves
- Stomach pain
- Bed wetting
- Immature / needy behaviour
- Temper tantrums
- Aggression
- Internalising distress or withdrawal
- Truancy
- Bullying

These symptoms can lead to a child/young person being misdiagnosed as having an illness, learning difficulties, or being naughty or disruptive.

If it comes to the attention of school staff that domestic and / or sexual violence and abuse is or may be affecting a child/young person, this must be passed to the Designated/Deputy Designated Teacher who has an obligation to share the information with the Social Services Gateway Team.

Children Who Display Harmful Sexual Behaviour

Learning about sex and sexual behaviour is a normal part of a child's development. It will help them as they grow up, and as they start to make decisions about relationships. As a school we support children and young people, through the Personal Development element of the curriculum, to develop their understanding of relationships and sexuality and the responsibilities of healthy relationships. Teachers are often therefore in a good position to consider if behaviour is within the normal continuum or otherwise.

It must also be borne in mind that sexually harmful behaviour is primarily a child protection concern. There may remain issues to be addressed through the school's positive behaviour policy, but it is important to always apply principles that remain child-centred.

It is important to distinguish between different sexual behaviours - these can be defined as normal, inappropriate, problematic, abusive or violent. Healthy sexual behaviour will generally have no need for intervention; however, consideration may be required as to appropriateness within a school setting.

Problematic sexual behaviour requires some level of intervention, depending on the activity and level of concern. If the behaviour is considered to be more serious, advice from the EA CPSS should be sought.

Harmful sexual behaviour is an umbrella term for sexual behaviours which are of concern and have caused or are likely to cause harm to the individual themselves or to others. It is important to distinguish between different sexual behaviours – these can be defined as normal, inappropriate, problematic, abusive or violent.

Normal sexual behaviour will generally have no need for interventions; however, consideration may be required as to appropriateness within a school setting.

Inappropriate sexual behaviour requires some level of intervention, depending on the activity and level of concern. For example, a one-off incident may simply require liaising with parents on setting clear direction that the behaviour is unacceptable, explaining boundaries and providing information and education. However, if the behaviour is considered to be more serious, perhaps because there are a number of aspects of concern, advice from the EA Child Protection Support Service (CPSS) may be required. The CPSS will advise if contact with PSNI or Social Services is required.

Problematic, abusive and violent sexual behaviours are of significant concern and guidance on the management of the pupils within the school and referral to other agencies such as the PSNI or Social Services will be sought from CPSS.

We will also take guidance from DE Circular 2022/02 to address concerns about harmful sexualised behaviour displayed by children and young people.

Online safety

Online safety means acting and staying safe when engaging in the online world. It is wider than simply internet technology and includes electronic communication via text messages, making comments on social media posts, social environments and apps, and using games consoles through any digital device. In all cases, in schools and elsewhere, it is a paramount concern.

The overall strategic direction for child safety online is the **Keeping Children and Young People Safe:** An Online Safety Strategy, published in February 2021. It sets out the Northern Ireland Executive's ambition that all children and young people enjoy the educational, social and economic benefits of the online world, and that they are empowered to do this safely, knowledgably and without fear.

The Strategy recognises that the ever-changing and fast-growing online environment presents both extensive educational benefits as well challenges in terms of keeping children and young people safe from the dangers of inappropriate communication and content.

For further information see: <u>Online Safety Hub - Safeguarding Board for Northern Ireland</u> (<u>safeguardingni.org</u>)

We in Harrison Nursery School have a responsibility to ensure that there is a reduced risk of pupils accessing harmful and inappropriate digital content and will be energetic in teaching pupils how to act responsibly and keep themselves safe. As a result, pupils should have a clear understanding of online safety issues and, individually, be able to demonstrate what a positive digital footprint might look like.

The school's actions and governance of online safety are reflected clearly in our safeguarding arrangements. Safeguarding and promoting pupils' welfare around digital technology is the responsibility of everyone who comes into contact with the pupils in the school or on school-organised activities.

Sharing Nudes and Semi-Nudes

Sharing nudes and semi-nudes is a term used to describe the sending or posting of naked or partially naked images, videos or livestreams online by young people under the age of 18. This could be via text, email, social media and gaming platforms, chat apps or forums. Sharing nudes is sometimes called 'sexting', however this term is often used by young people to talk about sharing sexual messages and not imagery.

Sharing nudes and semi-nudes between individuals in a relationship

As adults we can question the wisdom of this, but the reality is that children consider this to be normal and often the result of a child's natural curiosity about sex and their exploration of relationships. As a consequence, engaging in the taking or sharing of nudes and semi-nudes may not always be in a 'harmful' context. Nonetheless, staff must be aware that an image can be shared non-consensually, or a child can be groomed, tricked or coerced into sending nude and semi-nude images. Clearly pupils need to be aware that it is illegal, under the Sexual Offences (NI) Order 2008, to take, possess or share 'indecent images' of anyone under 18 even if they are the person in the picture (or even if they are aged 16+ and in a consensual Specific Types of Abuse Specific Types of Abuse 50 51 relationship) and in these cases you should contact local PSNI on 101 for advice and guidance. Please be aware that, while offences may technically have been committed by the child/children involved, the matter will be dealt with sensitively and considering all the circumstances and it is not necessarily the case that they will end up with a criminal record. It is important that particular care is taken in dealing with any such cases. Adopting scare tactics may discourage a child from seeking help if they feel entrapped by the misuse of sexual images. Advice should be sought from **CPSS**

Sharing an Inappropriate Image with an Intent to Cause Distress

If a child has been affected by inappropriate images or links on the internet it is important that you do not forward it to anyone else. Please remember that schools are not required to investigate incidents. It is an offence under the Criminal Justice and Courts Act 2015 (Criminal Justice and Courts Act 2015) to share an inappropriate image of another person without the individual's consent - see Articles 33-35 of the Act for more detail. By contacting the PSNI you could help prevent further distribution of the image and further

such incidents contain the damage it can cause. If a child has shared an inappropriate image of themselves that is now being shared further whether or not it is intended to cause distress, the child protection procedures should be followed. For further information see: www.legislation.gov.uk/ukpga/2015/2/section/33/enacted

If a young person has shared an inappropriate image of themselves that is now being shared further whether or not it is intended to cause distress, the child protection procedures of the school will be followed.

Operation Encompass

We are an Operation Encompass school. Operation Encompass is an early intervention partnership between local Police and our school, aimed at supporting children who are victims of domestic violence and abuse. As a school, we recognise that children's exposure to domestic violence is a traumatic event for them.

Children experiencing domestic abuse are negatively impacted by this exposure. Domestic abuse has been identified as an Adverse Childhood Experience and can lead to emotional, physical and psychological harm. Operation Encompass aims to mitigate this harm by enabling the provision of immediate support. This rapid provision of support within the school environment means children are better safeguarded against the short, medium and long-term effects of domestic abuse.

As an Operation Encompass school, when the police have attended a domestic incident and one of our pupils is present, they will make contact with the school at the start of the next working day to share this information with a member of the school safeguarding team. This will allow the school safeguarding team to provide immediate emotional support to this child as well as giving the designated teacher greater insight into any wider safeguarding concerns.

This information will be treated in strict confidence, like any other category of child protection information. It will be processed as per DE Circular 2020/07 'Child Protection Record Keeping in Schools' and a note will be made in the child's child protection file. The information received on an Operation Encompass call from the Police will only be shared outside of the safeguarding team on a proportionate and need to know basis. All members of the safeguarding team will complete online Operation Encompass training, so they are able to take these calls. Any staff responsible for answering the phone at school will be made aware of Operation Encompass and the need to pass these calls on with urgency to a member of the Safeguarding team.

Further information see The Domestic Abuse Information Sharing with Schools etc. Regulations (Northern Ireland) 2022.

Bullying

Bullying - is a highly distressing and damaging form of abuse and is not tolerated in our school (ref. Harrison Nursery School Anti-Bullying policy).

Grooming

Grooming of a child or young person is always abusive and/or exploitative. It often involves perpetrator(s) gaining the trust of the child or young person or, in some cases, the trust of the family, friends or community, and/or making an emotional connection with the victim in order to facilitate abuse before the abuse begins. This may involve providing money, gifts, drugs and/or alcohol or more basic needs such as food, accommodation or clothing to develop the child's/young person's loyalty to and dependence upon the person(s) doing the grooming. The person(s) carrying out the abuse may differ from those involved in grooming which led to it, although this is not always the case.

Grooming is often associated with Child Sexual Exploitation (CSE) (see Section 6.2), but can be a precursor to other forms of abuse. Grooming may occur face to face, online and/or through social media, the latter making it more difficult to detect and identify.

Adults may misuse online settings eg chat rooms, social and gaming environments and other forms of digital communications, to try and establish contact with children and young people or to share information with other perpetrators, which creates a particular problem because this can occur in real time and there is no permanent record of the interaction or discussion held or information shared.

Practitioners should be aware that those involved in grooming may themselves be children or young people, and be acting under the coercion or influence of adults. Such young people must be considered victims of those holding power over them. Careful consideration should always be given to any punitive approach or 'criminalising' young people who may, themselves, still be victims and/or acting under duress, control, threat, the fear of, or actual violence. In consultation with the PSNI and where necessary the PPS, HSC professionals must consider whether children used to groom others should be considered a child in need or requiring protection from significant harm.

Those working or volunteering with children or young people should be alert to signs that may indicate grooming, and take early action in line with their child protection and safeguarding policies and procedures to enable preventative action to be taken, if possible, before harm occurs.

Child Sexual Exploitation

CSE is a form of sexual abuse where children are sexually exploited for money, power or status. It can involve violent, humiliating and degrading sexual assaults. In some cases, young people are persuaded or forced into exchanging sexual activity for money, drugs, gifts, affection or status. Consent cannot be given, even where a child may believe they are voluntarily engaging in sexual activity with the person who is exploiting them. CSE does not always involve physical contact and can happen online. A significant number of children who are victims of sexual exploitation go missing from home, care and education at some point.

Any child under the age of 18 can be a victim of CSE. Although younger children can experience CSE, the average age at which concerns are first identified is 12-15 years of age. Sixteen and seventeen year olds, although legally able to consent to sexual activity can also be sexually exploited. Young males can also be victims of CSE.

CSE can be perpetrated by adults or by young people's peers, on an individual or group basis, or a combination of both, and can be perpetrated by females as well as males.

While children in care are known to experience disproportionate risk of CSE, the majority of CSE victims are living at home.

While CSE is not a specific criminal offence, it does encompass a range of sexual offences and other forms of serious criminal misconduct.

The Sexual Offences (NI) Order 2008 provides for a number of offences that between them could enable prosecution of all cases of CSE.

The Children (NI) Order 1995 and the Child Abduction (NI) Order 1985 can also be used in cases where children are going missing as part of the exploitation.

Identifying CSE

CSE can be very difficult to identify and a young person may not see themselves as a victim. However, it is our statutory responsibility to protect all children and young people from abuse, irrespective of whether or not they view themselves as a victim of abuse. Professionals need to be able to identify vulnerability in the midst of challenging behaviour and frequent resistance to, or even apparent disregard for, professional support.

Research repeatedly shows that young people rarely report abuse through CSE. Most concerns are identified by professionals, friends or family or by proactive investigation by authorities. In recognition of this, good practice guidelines state that all areas should assume that CSE is occurring within their area unless they have evidence to indicate otherwise. As such, schools should be alert to the likelihood of CSE and plan to protect children and young people accordingly.

Potential indicators of CSE:

- Acquisition of money, clothes, mobile phones etc without plausible explanation
- Truanting/leaving school without permission.
- Persistently going missing or returning late.
- Receiving lots of texts/ phone calls prior to leaving.
- Change in mood agitated/stressed.
- Appearing distraught/dishevelled or under the influence of substances.
- Inappropriate sexualised behaviour for age.
- Physical symptoms eg bruising; bite marks.
- Collected from school by unknown adults or taxis.
- New peer groups.
- Significantly older boyfriend or girlfriend.
- Increasing secretiveness around behaviours.
- Low self-esteem.
- Change in personal hygiene (greater attention or less).
- Self harm and other expressions of despair.
- Evidence or suspicion of substance abuse.

While these indicators can be useful in identifying potential risk, their presence does not necessarily mean CSE is occurring. More importantly, nor does their absence mean it is not.

Statutory Responsibilities

CSE is a form of child abuse and, as such, any member of staff suspecting that CSE is occurring will follow the school's child protection policy and procedures, including reporting to the appropriate agencies

The HSCT and PSNI should be involved as early as possible to ensure any evidence that may assist prosecution is not lost and to enable a disruption plan to reduce the victim's contact

with the perpetrator(s) and reduce the perpetrator(s) control over the victim to be put in place without delay. More details on the process can be found in DoH Co-operating to Safeguard Children and Young People in Northern Ireland (2016), Section 7.2.7.

A child may suffer or be at risk of suffering from one or more types of abuse and abuse may take place on a single occasion or may occur repeatedly over time.

Information is also available in relation to -

- Forced Marriage
- Female Genital Mutilation (FGM)
- Children who display harmful sexualised behaviour
- E safety/ internet abuse
- Sexting

Please refer to Safeguard Children and Young People in Northern Ireland (2016), Section 6.

3. RESPONSE

In the event of an allegation of child abuse the member of staff will:

- (a) Listen to the child and accept what is said.
- (b) Record statements.
- (c) Explain what they have to do next and to whom they have to talk.
- (d) Reassure the child they have done the right thing to talk about it.
- (e) Refer information to the Designated member of staff

GUIDELINES OF WHAT TO DO IF A CHILD MAKES A DISCLOSURE

The following are guidelines for use by staff should a child disclose concerns of a child protection nature.

Do:	Do not:
 Listen to what the child says Assure the child they are not at fault Explain to the child that you cannot keep it a secret Document exactly what the child says using his/her exact words Stay calm Listen Accept Reassure Explain what you are going to do Record accurately Seek support for yourself 	 Ask leading questions Put words into the child's mouth Ignore the child's behaviour Remove any clothing Panic Promise the child confidentiality Delay Start to investigate Do Nothing

4. REFERRAL

PROCEDURE FOR REPORTING SUSPECTED (OR DISCLOSED) CHILD ABUSE

The designated teacher for child protection is <u>Mrs J Hunter</u>. In her absence, <u>Mrs B Edwards</u>, will assume responsibility for child protection matters.

If a child makes a disclosure to a teacher or other members of staff which gives rise to concerns about possible abuse, or if a member of staff has concerns about a child, the member of staff will act promptly.

She will not investigate - this is a matter for the Social Services - but should report these concerns immediately to the designated teacher, discuss the matter with her, and make full notes.

The designated teachers will discuss the matter with the Principal as a matter of urgency to plan a course of action, and ensure that a written record is made. If the Principal is not available the designated Governor for Child Protection will be contacted, if unavailable contact will be made with the Chairperson of the Board of Governors.

The Principal, in consultation with the designated teacher & CPSS, will decide whether, in the best interests of the child, the matter needs to be referred to Social Services. If there are concerns that the child may be at risk, our school will make a referral. (UNOCINI). Unless there are concerns that a parent may be the possible abuser, the parent will be informed immediately.

The Principal may seek clarification or advice and consult with the CPSS or the Senior Social Worker before a referral is made. No decision to refer a case to Social Services will be made without the fullest consideration and on appropriate advice. Where appropriate the source of the concern will be informed of the action taken.

The safety of the child is our first priority.

If a child protection referral is not required the school may consider other options including monitoring, signposting or referring to other support agencies e.g. Family Support Hub with parental consent and, where appropriate, with the child/young person's consent.

If a child protection referral is required the designated teacher will seek consent from the parent/carer and/or child (if they are competent to give this) unless this would place the child at risk of significant harm.

Where there are concerns about possible abuse, the Principal will inform:

- Social Services
- CPSS

The following figure shows the procedure for possible abuse by non-staff.

Procedure where the school has concerns, or has been given information, about possible abuse by someone other than a member of the school's staff.

Member of staff completes the note of concern on what has been observed or shared and must act promptly. Source of concern is notified that the school will follow up appropriately on the issue raised. Staff member discusses concerns with Designated teacher or deputy designated teacher in her absence and provides note of concern. Designated teacher should consult with the Principal or other relevant staff before deciding upon action to be taken, always taking care to avoid undue delay. If required, advice may be sought from a CPSS officer. CP referral is required CP referral is not required Designated teacher School may consider seeks consent of the other options including Designated Teacher monitoring the situation parent/carer and/or the clarifies/discusses concern child (if they are with child/parent/carers within an agreed competent to give this) and decides if a child timescale; signposting or unless this would place protection referral is or is referring the the child at risk of child/parent/carers to not required. significant harm then appropriate support services such as the telephones the Children's Services Children's Services Gateway Team and/or Gateway Team or local the PSNI if a child is at Family Support Hub with immediate risk. He/she parental consent, and the submits a completed child/young person's UNOCINI referral consent (where form within 24 hours. appropriate).

Where appropriate the source of the concern will be informed as to the action taken. The Designated Teacher will maintain a written record of all decisions and actions taken and ensure that this record is appropriately and securely stored.

PROCEDURE FOR DEALING WITH COMPLAINTS AGAINST STAFF OR A VOLUNTEER

If a complaint about possible child abuse is made against a member of staff, the Principal (or the designated teacher, if she is not available) must be informed immediately. The following procedures will apply (unless the complaint is about the designated teacher). Where the matter is referred to Social Services, the member of staff will be removed from duties involving direct contact with pupils and may be suspended from duty as a precautionary measure pending investigation by Social Services. The Chairperson of the Board of Governors will be informed immediately.

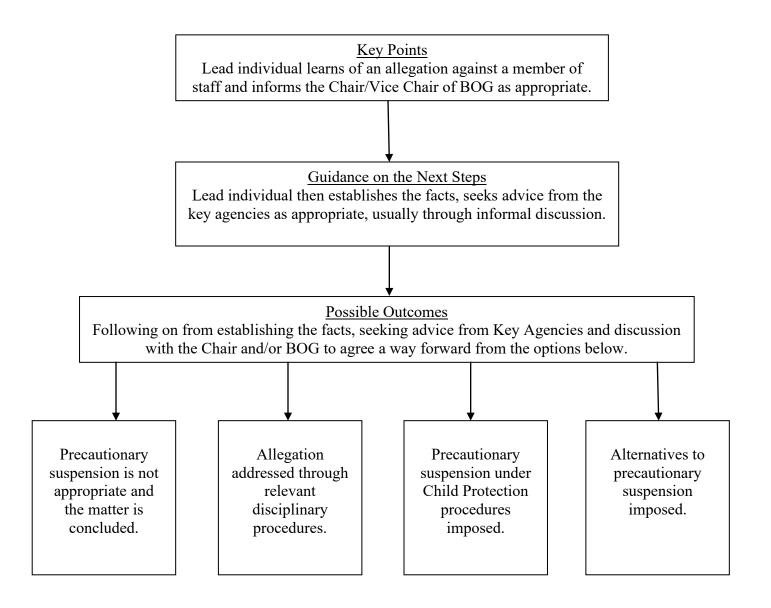

If a complaint is made against the Principal, the designated teacher (or her deputy, if she is not available) will be informed immediately. She will inform the Chairperson of the Board of Governors and together they will ensure that the necessary action is taken.

If any member of staff feels unsure about what to do if she has concerns about a child, or unsure about being able to recognise the signs or symptoms of possible abuse, he/she should speak to the designated teacher (Mrs J Hunter).

It should be noted that information given to members of staff about possible child abuse cannot be held in confidence. In the interests of the child, staff may need to share this information with other professionals. However, only those who need to know will be told.

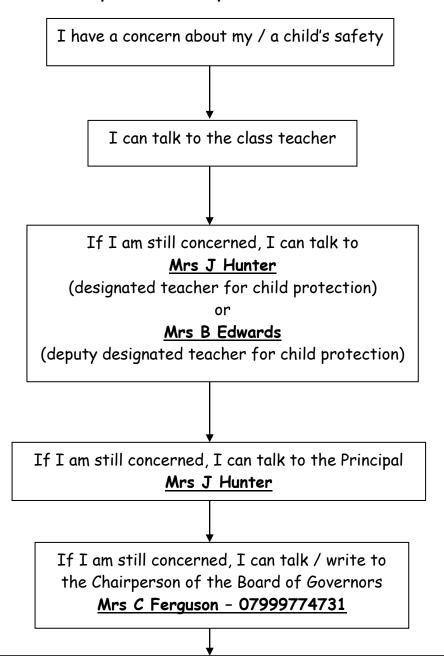

The following figure shows the procedure where a complaint has been made about possible abuse by a member of the school's staff.

Procedure where a complaint has been made about possible abuse by a member of the school's staff

The figure below shows the procedure for a parent to make a complaint/concern about their own or any other children.

If a parent has a potential child protection concern within the school

At any time, I can talk to the social worker (Tel: 08007837745)

OR the Police (Tel: 028 3831 5274 Number of the local CARE unit) OR 101 (non-emergency number) OR PSNI Central Referral Unit 028 90 259299

If you have escalated your concern as set out in the above flowchart, and are of the view that it has not been addressed satisfactorily, you may revert to the school's complaint policy (available in school website www.harrisonnurseryschool.co.uk).

If you have a concern about a child's safety or suspect child abuse within the local community, it should be brought directly to the attention of the Children's Services

Gateway Team immediately.

THE SELECTION AND USE OF PARENTS, VISITORS AND STUDENTS TO SUPPORT SCHOOL ACTIVITIES

Parents, visitors and students have an important and beneficial role in supporting the work of teachers in school and in contributing, by their efforts and initiative, to the life of the school.

Students only commence their placement when vetting has been completed. Students will never be responsible for assisting children at the toilet.

Visitors to school (e.g. dental nurse, firemen etc.) are always in the presence of the class teacher where children are involved.

When a member of staff answers the door to a visitor the visitor is asked to identify himself/herself and then asked to wait in the porch or entrance hall for the Principal or her deputy.

It is the policy of the school that no workmen complete work when the children are in school. Appointments can be made with the Principal for after 1.30pm. Exceptions to this include work in areas that the children do not have access to and in emergencies.

Parents/grandparents/voluntary helpers who visit school or assist on a school trip are never left in an unsupervised capacity. We have an advice sheet which all voluntary helpers on outings are asked to read so that they are familiar with procedures. All voluntary helpers will never be responsible for taking children to the toilet.

5. CONFIDENTIALITY AND INFORMATION SHARING

Information given to members of staff about possible child abuse cannot be held 'in confidence'. In the interests of the child, staff have a responsibility to share relevant information about the protection of children with other professionals, particularly the investigative agencies. In keeping with the principle of confidentiality, the sharing of information with school staff will be on a 'need to know' basis.

Where there have been, or are current, child protection concerns about a pupil who transfers to another school we will follow DE guidance in determining what information should be shared with the Designated Teacher in the receiving school.

Where it is necessary to safeguard children, information will be shared with other statutory agencies in accordance with the requirements of this policy, the school data protections policy and the General Data Protection Regulations (GDPR).

RECORD-KEEPING

In accordance with DE guidance we have developed clear guidelines for the recording, storage, retention and destruction of both manual and electronic records where they relate to child protection concerns.

In order to meet these requirements all child protection records, information and confidential notes concerning pupils in Harrison Nursery School are stored securely and only the Designated Teacher and Deputy Designated Teacher/Principal have access to them. In accordance with DE guidance on the disposal of child protection records these records will be stored from child's date of birth plus 30 years.

If information is held electronically, all must be encrypted and appropriately password protected. All records, information and confidential notes will be kept in separate files in a locked filing cabinet. We will only identify the child by their initials and date of birth. These records will be kept separate from the register, class observations and progress reports.

The Principal will ensure that proper records, dated and signed, are kept of all complaints or information received, and all concerns about possible abuse noted by staff. As soon as possible he/she should obtain a written record from the member of staff who received the information, or otherwise has concerns about possible abuse, setting out:

- * the nature of the information:
- who gave it;
- the time, date and circumstances;
- where the concern relates to signs or symptoms or possible abuse, a description of these.

The Principal or Designated Teacher should supplement the record with:

- details of any advice sought, from whom and when;
- the decision reached as to whether the case should be referred to Social Services; and, if so,
- how, when and by whom this was done;
- otherwise, reasons for not referring to Social Services.

These notes or records should be factual, objective and include what was seen, said, heard or reported. They should include details of the place and time and who was present and should be given to the Designated/Deputy Designated Teacher. The person who reports the incident must treat the matter in confidence.

If a pupil from our school attends an EOTAS provision, a member of the safeguarding team will share any child protection concerns they have with the DT in the centre.

CONSENT

Concerns about the safety or welfare of a child/young person, should, where practical, be discussed with the parent and consent sought for a referral to children's social services in the local HSC Trust, unless seeking agreement is likely to place the child/young person at further risk through delay or undermine any criminal investigative process (for example in circumstances where there are concerns or suspicions that a crime has taken place); or there is concern raised about the parent's actions or reactions. The communication/language needs of the parent/carer should be established for example in relation to disability/ethnicity and the parent's/carer's capacity to understand should be ascertained. These should be addressed through the provision of appropriate communication methods, including, where necessary, translators, signers, intermediaries or advocacy services.

Effective protection for children/young people may, on occasion, require the sharing of information without prior parental/carer consent in advance of that information being shared.

Where staff decide not to seek parental consent before making a referral to children's social services in the local Health and Social Care Trust or the police, the reason for this decision must be clearly noted in the child/young person's records and included within the verbal and written/UNOCINI referral.

When a referral is deemed to be necessary in the interests of the child/young person, and the parents/carers have been consulted and do not consent, the following action should be taken -

- the reason for proceeding without parental consent must be recorded;
- the withholding of permission by the parent/carer must be included in the verbal and written referral to children's social services;
- the parent/carer should be contacted to inform them that, after considering their wishes, a referral has been made.

Staff making a referral may ask for their anonymity to be protected as far as possible because of a genuine threat to self/family. In such instances this anonymity should be protected with an explanation to the staff member that absolute confidentiality cannot be guaranteed as information may become the subject of court processes.

CONFIDENTIAL - NOTE OF CONCERN CHILD PROTECTION RECORD - REPORTS TO DESIGNATED TEACHER

CONFIDENTIALITY & INFORMATION SHARING

Information given to a member of staff about possible child abuse cannot be held 'in confidence.' In the interests of the child, staff have a responsibility to share relevant information about the protection of children with other professionals particularly the investigative agencies. In keeping with the principle of confidentiality, the sharing of information with school staff will be on a 'need to know' basis.

Where there have been, or are current, child protection concerns about a pupil who transfers to another school we will consider what information should be shared with the Designated teacher in the receiving school.

Where it is necessary to safeguard children information will be shared with other statutory agencies in accordance with the requirements of this policy, the school data protection policy and the General Data Protection Regulations (GDPR).

SAFE RECRUITMENT PROCEDURES

Vetting checks are a key preventative measure in preventing unsuitable individuals' access to children and vulnerable adults through the education system and schools must ensure that all persons on school property are vetted, inducted and supervised as appropriate if they are engaged in regulated activity. All staff, paid or unpaid, who are appointed to positions in Harrison Nursery School are vetted/supervised in accordance with relevant legislation and Departmental guidance. Students, visitors to school and volunteers (e.g. on trips) are never in an unsupervised capacity with the children

CODE OF CONDUCT FOR STAFF (paid or unpaid)

All actions concerning children and young people must uphold the best interest of the young person as a primary consideration. Staff must always be mindful of the fact that they hold a position of trust and that their behaviour towards the child and young people in their charge must be above reproach. All members of staff are expected to comply with the school's Code of Conduct for Employees and volunteers (which has been approved by BOG).

THE PREVENTATIVE CURRICULUM

Harrison Nursery School seeks to promote pupils' awareness and understanding of safeguarding issues, including those related to Child Protection through the delivery of our curriculum. The curriculum also offers a medium to explore sensitive issues with children in and age-appropriate way which helps them to develop appropriate protective behaviours. (DE guidance "Safeguarding and Child Protection in Schools" Circular 2017/04 and subsequent amendments). Through the delivery of a preventative curriculum we aim to build confidence, self-esteem and personal resilience in the children so that they can develop coping strategies and can make more positive choices in a range of situations.

Throughout the school year safeguarding and child protection issues are addressed through class group time, using stories and discussion. Relevant safeguarding and child protection information is clearly displayed in the entrance hall. Other initiatives which address child protection and safety issues include visitors to school such as the community police officer and our local health visitors.

ADDITIONAL PASTORAL ARRANGEMENTS

It is our policy to do our best to ensure that children enrolled in Harrison Nursery School and their families receive the care and consideration to which they are entitled. We recognise the importance of maintaining a good standard of well-being for children, staff and parents. We aim to support families and children by being readily available for parents, listening and giving extra assistance in emergencies. We try to see things from a parent's point of view so that we are best able to support parents' and children's needs. It is our policy to treat children, staff and parents with respect and consideration at all times:

The following support our pastoral care policy:

- We encourage parents of unsettled children to ring at any time to reassure themselves that their child is happy. (see Settling in policy for more information)
- We encourage parents with queries or worries to call or ring any afternoon so that we can give them some time.
- All parents are invited to progress interviews with their child's teacher in late autumn and early spring. A meeting is also offered in June if they wish to discuss their child's transition report.
- We have positive daily contact with parents and other carers on arrival and at home time
- We organise an appropriate parenting programme / information events for parents which is a useful social and educational experience for parents.
- It is our policy to treat all parents as equal irrespective of social background, religion, occupational standing or gender.
- Staff are encouraged to physically get down to child level when talking to children so
 that each child may feel that he/she is receiving individual attention and is important
 Our organisation is such that maximum amount of staff time is spent with children thus
 ensuring that they receive a high standard of care and attention.
- The time staff have with children allows them to build good relationships with them and get to know their personalities, fears and problems.
- The needs of all the children are discussed daily and targets/plans put in place to support each child.

MONITORING & EVALUATION

This policy will be reviewed annually by the safeguarding team and approved by the BOG for dissemination to parents, pupils and staff. It will be implemented each August/September with all staff and on an ongoing basis with placement students etc. before they commence. Compliance with the policy will be monitored on an on-going basis by the Designated Teacher for child protection and periodically by the Schools Safeguarding Team. The BOG will also monitor child protection activity and the implementation of the Safeguarding and Child Protection policy through the provision of reports from the designated teacher.

OPERATION ENCOMPASS

DATA PROTECTION IMPACT ASSESSMENT

NAME OF SCHOOL

Harrison Nursery School

INTRODUCTION

Operation Encompass is an early intervention partnership between the PSNI, Education Authority and Schools in Northern Ireland, aimed at supporting children who are victims of domestic violence in accordance with *The Domestic Abuse Information-sharing with Schools etc. Regulations (Northern Ireland) 2022*. When the PSNI attend an incident of alleged domestic violence and school aged children are present, they will contact the school before the start of the next working day. Relevant information is then shared with a member of the school safeguarding team. This may include limited details of the incident pertaining to children's involvement/exposure and the names of alleged perpetrators/other victims. The purpose of this information sharing is so that school staff can meet the immediate emotional needs of children who have been victims of domestic violence.

NATURE OF PROCESSING

Previously the PSNI did not routinely share information about domestic violence cases directly with schools. Schools were often in receipt of this type of information in accordance with the sharing of safeguarding information by social services as part of their assessment process. This is in line with established safeguarding policy and procedure. Social services are always informed when a child is present during an incident of domestic violence. As a result of the introduction of *The Domestic Abuse Information-sharing* with Schools etc. Regulations (Northern Ireland) 2022 information relating to domestic

violence/abuse incidents where a child is present will now be routinely shared with schools in Northern Ireland.

In response to a domestic violence/abuse incident where a child is present the PSNI will collect information relating to the school the child attends. They will then make contact with the school, confirm the child is in attendance and share details of the incident with the school. Dependent on the incident, both personal and special category information will be shared. Given the nature of the incidents it is anticipated that the information being shared with the school will often include special category information.

The Domestic Abuse Information-sharing with Schools etc. Regulations (Northern Ireland) 2022 explicitly states the information that may be shared with Schools by PSNI:

- (2) For the purposes of paragraph (1) "information" means—
- (a) the date, location and approximate time of the incident;
- (b) the nature of the incident;
- (c) the severity of the incident, where relevant;
- (d) the name and date of birth of the child that the incident concerned and their usual address, where different from the location of the incident;
- (e) who the incident involved and their relationship, if any, to the child;
- (f) information about whether or not the child was present, or in the immediate vicinity of where the incident occurred, and if in the home, where the child was in the home;
- (g) information about where a child was neither present or in the vicinity of the incident but by reason of being present at the scene shortly afterwards (for example) perceived the aftermath; and
- (h) such other information relating to the incident as the relevant person reasonably believes is necessary for the purposes mentioned in paragraph (1)(b).

Where a parent refuses to tell the Police what school their child attends, then the PSNI will contact the EA's Child Protection Support Service with the child's name and DOB so they can tell the Police which school to share the Operation Encompass information with. This is covered in the statutory regulations.

When this information is shared with the school, the teacher will prioritise supporting the child. Following this, they will make a record of the information and their actions within the Child Protection file as per DE Circular 2020/07 – 'Child Protection: Record Keeping in Schools'. This file cannot be accessed by staff who are not in the Safeguarding Team. On occasion relevant information will be shared with other staff in the school if this is in the best interests of the welfare of the child. All school staff are aware of the need for confidentiality and are trained in this. On other occasions schools may contact the EAs Child Protection Support Service to discuss a case and this is in-line with DE Circular 2017/04 - 'Child Protection in Schools'.

The school staff will record details of the alleged incident within the school child protection file. This may include details of the alleged incident and personal details such as names of individuals involved.

In good child protection practice, professionals synthesise and assess information as a whole. Numerous case management reviews have taught us that often it can be lots of smaller pieces of information that can add up to describe a picture of a child at risk. Therefore, new information shared by Operation Encompass may well add to existing information held in the child protection file and help inform a wider assessment of risk and need for a child. Teachers will then act on this on the basis of existing policy and procedure (DE Circular 2017/04 – 'Child Protection in Schools', SBNI Regional Policy and Procedure, Children Order 1995). The information will be retained as per the School Retention and Disposal policy for Child Protection files as set out in DE Circular 2020/07 – 'Child Protection: Record Keeping in Schools' (DOB + 30years) found here

SCOPE OF THE PROCESSING

The data will include names of alleged perpetrators and victims, the names of the children exposed to the incident of domestic violence and some details about what is alleged to have happened. Whilst the information being processed will not always be special category data it is recognised that any information received as part of Operation Encompass is of a sensitive nature. The school will therefore process this information securely in line with current procedures for child protection information, which are already in place.

The information is likely to be about an alleged criminal offence. Given that the Operation Encompass calls are made as soon as is practical after the Police call out, these alleged offences are always going to be at the very early stages of a formal investigation. School staff will have a good understanding of this via the Operation Encompass training that they will have completed.

No financial information will be shared within an Operation Encompass call. However, information might be shared about alleged financial abuse/financial control as it pertains to the domestic abuse situation.

Every time there is an Operation Encompass call, the school will make a record of the information provided by the Police in the child's child protection file as per DE Circular 2020/07 – 'Child Protection: Record Keeping in Schools'. This information will be kept as per the school's retention and disposal policy (DOB + 30 years).

The individuals who are affected by this data storage, are anyone connected with the incident of alleged domestic violence, whose details are shared by the PSNI.

Each school will only be responsible for files linked to their own pupils. Should a school close down, the CP information will be treated as per the DE Circular 2020/07 – 'Child Protection: Record Keeping in Schools'. Where CPSS are aware of an Operation Encompass call, a record will be made as per the EA Records Management policy.

All information processed by the school pursuant to Operation Encompass and the Domestic Abuse Information-sharing with Schools etc. Regulations (Northern Ireland) 2022 will be processed on the lawful basis that such processing is necessary for the School to perform its public task (i.e. to the enable the school to perform its statutory functions and tasks as a public authority in relation to the Operation Encompass and the Domestic Abuse Information-sharing with Schools etc. Regulations (Northern Ireland) 2022, and to safeguard and promote the welfare of pupils. If the information provided includes special category data, the School will process such data on the basis that there is a substantial public interest in doing so in the performance of its statutory functions. Any health data or criminal information provided by the PSNI pursuant to the Domestic Abuse Information-sharing with Schools etc. Regulations (Northern Ireland) 2022 will be for the purposes of ensuring school staff can meet the immediate emotional needs of children who have been victims of domestic violence, to safeguard and promote the welfare of those children.

IDENTIFY AND ASSESS RISKS

Describe source of risk	Likelihood of harm	Severity of harm	Overall risk
There is a risk of unauthorised access to sensitive personal information processed in connection with Operation Encompass if the information processed is not stored securely	Possible	Significant	Medium
2. There is a risk of unauthorised / inappropriate sharing of sensitive personal information processed in connection with Operation Encompass.	Possible	Significant	Medium

Risk	Measures to reduce or eliminate risk	Effect on risk	Residual risk	Measure approved
1.	The school will follow the guidance set out in DE Circular 2020/07 – 'Child Protection: Record Keeping in Schools'	Reduced	Low	Yes
	Information processed in connection with Operation Encompass will not be kept on the child's Pupil/ Educational Record. The school will have a separate secure confidential filing system for physical records of child protection concerns and/or a secure electronic or online/cloud based system with restricted access and appropriate password protections. The filing system, whether physical or electronic, will be accessible to only the DT (Designated Teacher), DDT (Deputy Designated Teacher) or Principal.			
	Physical or electronic Child Protection Records will not be removed from the school premises, except when taken to a case planning meeting in respect of the child, on foot of a court order, when a child transfers to a new school and there are Child protection concerns or when there is a Case Management Review/Domestic Homicide Review. If information needs to be taken out of the school, it will be transported securely and a record will be kept of when it was removed, by whom, for what purpose, and when it was returned. Any computing devices or data storage (including laptops, tablets, USB drives etc.) used to transport electronic Child Protection Records in the circumstances referred to above will be encrypted and password protected.			

2.		Reduced	Low	Yes
	The School will adhere to the Domestic Abuse Informationsharing with Schools etc. Regulations (Northern Ireland) 2022, which explicitly sets out when / what information may be shared between the Police and a designated person, and between a designated person and a class teacher.	Troductu	Low	
	The school will also follow the guidance set out in DE Circular 2020/07 – 'Child Protection: Record Keeping in Schools'			
	The school will only share information where, it is deemed to be in the best interests of a child to share child protection information relating to pupil(s), and any sharing of such information will be as is necessary; proportionate; relevant; adequate; accurate; timely and secure.			
	In the interests of accountability and transparency, the school will keep a record of the decision(s) taken and the reasons for it — whether to share information or not. Where the school decides to share information, the school will keep a record of what it shared, with whom and for what purpose.			
	All staff involved in the processing of sensitive personal information in connection with Operation Encompass understand the importance of maintaining confidentiality and the consequences of any breach.
